- Managed e-commerce projects, resulting in a average 20% growth.
- Collaborated with project owners and a development team, ensuring a client satisfaction.
- Designed and implemented user interfaces, ensuring responsive and intuitive user experiences Optimized application performance for speed and scalability.

Web Developer | [Code alpha](#) | Mumbai, India |

May 2023 – May 2023

- Developed and enhanced web applications using modern frameworks, focusing on practical implementation of core concepts.
- Collaborated in a team-oriented environment to solve real-world challenges and deliver efficient solutions.
- Strengthened technical expertise in web development through hands-on project work and continuous learning.

PROJECTS

Nxt Watch React JS, Node JS, JavaScript, Bootstrap, REST API Calls.

Built the Nxt Watch application, modelled after YouTube, enabling users to log in, explore video categories such as Trending and Gaming, access saved videos, and search for specific content while adjusting the interface theme.

- Developed Login, Home, Trending, Gaming, and Saved videos pages utilizing React components, props, state management, lists, and event handling.
- Facilitated user authentication with username/password input, login API calls, and maintained persistent login states using JWT tokens and local storage.
- Incorporated React Router components for distinct routes and protected access, redirecting unauthenticated users to the login page.

Jobby App - React JS, Node JS, JavaScript, Bootstrap, JWT Token, Authorization, Authentication.

Developed a comprehensive job search solution, Jobby App.

- Designed pages for Login, Home, Jobs, and Job item details with React components and form inputs.
- Secured user data with JWT tokens, REST API calls, and local storage.
- Implemented protected routes and persisted login state with React Router and local storage.

Nxt Trendz - React JS, Node JS, JavaScript, Bootstrap, JWT Token, Authorization, Authentication.

Created a modern e-commerce experience with a design inspired by Amazon and Flipkart.

- Implemented pages for Login, Products, and Product details with React Router, React components, and form inputs.
- Secured user data with JWT tokens, REST API calls, and local storage.
